

GREEN TO RED LID CHANGEOVER UPDATE – WASTE BIN

To support the roll out of the new Food Organics and Garden Organics (FOGO) kerbside service, many properties will now have had their all-green general waste bin lids changed to have a red lid.

If your bin was missed, and still has a green lid on it, or part of your bin is broken and requires a repair, please contact Customer Service, and our team will organise a new lid, repair or replacement part.

For further information or to log a repair of your bin, please contact Customer Service (03) 5755 0555 or info@alpineshire.vic.gov.au

FOOD ORGANICS, GARDEN ORGANICS BIN DELIVERY COMMENCING

From Wednesday, 7 June, our contractor, and their team will commence the staged delivery of the new 240L Food Organics, Garden Organics (FOGO) kerbside bin, benchtop caddy, one year's supply of caddy liners and an education pack to properties receiving the new service. Your caddy will be attached to your new bin with a reusable cable tie.

The new collection service model will commence from Monday, 3 July 2023 for all eligible properties. Do not place your FOGO bin out for collection prior to this time, as it will not be emptied.

Key changes that will take effect from Monday, 3 July include:

- General Waste kerbside collection will move to the alternate fortnight to your recycling bin.
- FOGO kerbside collection will be weekly.

Your allocated collection day will remain the same.

Each week your green-lid FOGO bin will be out with either the yellow-lid recycling bin or the red-lid general waste bin. Your recycling bin will continue to be collected on the same fortnight, and your general waste bin will now be collected on the opposite fortnight.

To find out more, head to <https://www.alpineshire.vic.gov.au/residents/food-organics-garden-organics-kerbside-collection> or contact Customer Service (03) 5755 0555.
