

This scorecard is intended to help you record the data for your home and is to be used in conjunction with the Alpine Shire Council's Home Energy and Water Efficiency Kit Guide (the guide).

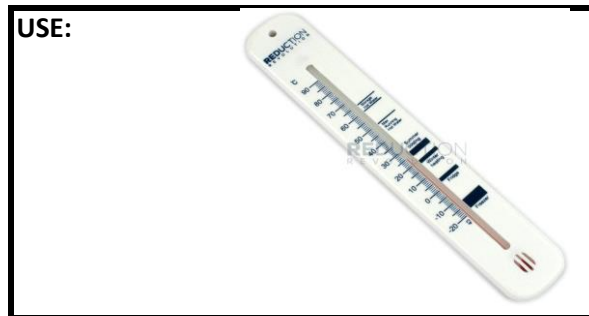

How to use this scorecard:

This scorecard is your own, once downloaded you can save it somewhere handy so you can refer to it later. The scorecard has been pre-populated with tables you can use to note down the readings you obtain from your home, using the equipment provided. Green cells contain recommended values for each measurement, obtained from the literature (explained further in the guide). You can add more rows in each table and more tabs so the scorecard works for you.

Fridge	Temp (°C)
Back of fridge	
Middle of fridge	
Door of fridge	

Freezer	Temp (°C)
Back of freezer	
Middle of freezer	
Door of freezer	

	Temp (°C)
Hot Water Tap	

	Power (Watt)	Time	Energy Use (kWh)	GHG Emissions (CO2-e/kWh)	Cost
Dryer					
Washing Machine					
TV					
Portable Heater					
Fridge					
Freezer					

(Feel free to add as many areas as you like)

USE:

Room	Measured luminance (lx)	Recommended luminance (lx)
Corridors and passageways		40 – 80
Toilet/Bathroom		80 – 100
Home Office/Study		240 – 400
Workshops/Art Rooms		600 – 1600
Kitchen/Counter tops		240
Living Room		160 – 320
Bedrooms		160 - 320

(Feel free to add as many areas as you like)

USE:

Tap type	Flow rate (L/min)	Recommended flow rate (L/min)
Hand basins		4
Kitchen sinks		6-8
Laundry sinks		8
Outdoor taps		6
Shower heads		6-9
