ISSUES / POTENTIAL PROJECTS

A PARK UPGRADES + CREATING A 'HEART'
- Define the 'heart' or town centre of Harrietville.
- Strengthen links between Pioneer and Tavare Parks (should be viewed as one Park, not two separate entities).
- Selective vegetation removal and uplifting canopies would allow views into the Parks and assist with orientation.
- Improve directional orientation towards pedestrian bridge crossing to improve connections, strengthen orientation towards Ovens River East and views between Parks
- Rationalisation of road pavement and conversion to parkland.
- Opportunity for bespoke shelter / picnic structure.
- Potential to upgrade toilet facilities.
- Improving signage and removal of duplicate outdated signage.

B ANNOUNCING ENTRIES
- Opportunity to create unique and memorable town entry markers.
- Town identifier and branding signage opportunities.
- Rationalise existing signage from northern approach
- Assisting wayfinding to Dredge Hole and Town Centre precincts.

C DEFINE TRAILS START + END
- Connect start / finish for all local trails emanating from this point.
- Use colour coded directional signage (building on existing marker designs and brochure coding).

D HISTORICAL INFORMATION CURATION
- Rationalising of the numerous historical markers, curating content and creating a contemporary and unified graphic style.
- Positioning historical elements in fewer locations (single location in Pioneer Park and potential relocations to Museum).
- Determine hierarchy of messaging and content.

E MAIN STREET UPGRADES
- Create continuous footpath connection (one sided).
- Rationalise carparking and reduce road pavements (no kerbs).
- Traffic calming measures at key locations.
- Infill street tree planting to create consistent boulevard.
- Furniture upgrade to improve public realm.
- Careful insertion of new elements to ensure character retention.
- Investigate street lighting options.

F COMMUNITY HALL CIVIC SPACE
- Increase 'civic' status, prominence and visibility from road.
- Create modest gathering 'plaza' space in front of building.
- Improve pedestrian linkages across street.

G MUSEUM
- Opportunity for a well-designed interpretive experience.

H DREDGE HOLE PARK PRECINCT
- Opportunity to provide an enticing and logical entry sequence to the Dredge Hole precinct, improving parkland amenity and connections to Town centre.
- Potential to enhance existing facilities with shade and seating, year-round grass coverage to edge of Dredge Hole for picnicing.

I IDENTITY
- Create a local identity or style 'branding' for consistent use across townscape elements. Reinforce unique Harrietville qualities in a contemporary and visually appealing way.
- Develop a theme referencing the unique qualities of Harrietville as a point of difference to Bright and surrounding towns.

Red dots indicate individual community comments received during Zoom webinar session on 16.07.2020 or subsequent feedback provided.
Black dashed lines represent proposed project boundaries. Individual project items are listed in red.

Where to from here...?
Site feature surveys will be undertaken, then draft detailed concept plans will be prepared by MDG to propose the aesthetic direction and functional outcomes of the selected project areas. This information will then be reviewed with the community once complete to seek further comments and support prior to finalising.
